

Personal & academic information

Full name : KHULOOD ABDULKAREEM HUSSINE

Surname :AL-TAMEEMI

Address : Iraq , Basrah

E-mail : khuabd8@gmail.com

Nationality : Iraqi

Sex : Female

Occupation :Teacher at university of Basrah / college of Nursing / Medical Science branch .

Rewards : I received rewards as distinct teacher in my specializing.

Academic period : 12 years.

Under Graduation

University: University of Basrah - College of Science - Biology department.

General specialty : Microbiology

Date of graduation :2007

Average : 80.248

Graduation order : First

post Graduation / Master Degree

University : University of Basrah - College of Science - Biology department.

Specific specialty : Molecular Genetic of Medical Microbiology

Subject & Title of Dissertation : Genetic Study of Biofilm Forming Bacteria , Isolated From Denture and Orthodontic Devices .(four bacterial strains were recorded in European Nucleotide Archive (ENA), National center for Biotechnology Information (NCBI) and Gene Bank as a new strains in the world 00these are [*Chryseobacterium vietnamense* strain IRQBAS3 (HG003648) , *Morganella morganii* strain IRQBAS4 (HG003649), *Enterobacter ludwigii* strain IRQBAS1 (HG003646) and *Enterobacter cloacae* strain IRQBAS2 (HG003647)].

Date of graduation : 26/1/2014

Average : 81.05

graduation order : First
